

# Personal Learning Device (PLD) Initiative

Briefing for Parents

A PRESENTATION BY  
MINISTRY OF EDUCATION, SINGAPORE

# The National Digital Literacy Programme and the PLD Initiative

An Overview

# The National Digital Literacy Programme (NDLP)

1. The NDLP was launched in March 2020 to **make digital learning inclusive by equipping students with the digital skills** to be future-ready.
2. Under the NDLP, every secondary school student will **own a school-prescribed personal learning device (PLD)**. Students may use funds from their Edusave Account to pay for the PLD.

# Intended Outcomes of the PLD Initiative

The use of the PLD for teaching and learning aims to:

**Support the Development  
of Digital Literacy**

**Support Self-Directed and  
Collaborative Learning**

**Enhance Teaching and  
Learning**

# Students' Experiences

# **Learning with a PLD**

## **Canberra Secondary School**

# How will your child/ward use the PLD?

**At Canberra Secondary School, your child/ward will be using the PLDs:**

1. For active learning in subjects
2. To support Home-based Learning
3. To access digital resources on the Student Learning Space (SLS) and other digital platforms
4. To make use of digital tools such as calendaring and note-taking to enhance personal productivity

# Supporting Students in the Safe and Effective Use of the Devices

# Supporting Students in the Safe and Effective Use of the Devices

The school has measures in place to enable a safer digital environment for learning with the use of PLDs, e.g.

- Classroom management and routines
- Educating students on Cyber Wellness
- Partnering parents/guardians to ensure that students are well-supported in their use of technology for learning
- Device Management Application (DMA)

# Classroom Management and Routines

- Ensure that PLD is always with you and keep PLD in the school bag where possible
- Lock it up in the metal cabinet when leaving the classroom for recess or CCA. **Do not leave** any PLD in the metal cabinet after school or after CCA
- **Remember to bring** PLD to school **everyday** as part of the responsibilities for learning and enhancing personal productivity
- **Charge** PLD at **home** everyday and bring a fully-charged PLD to school
- Use personal earpieces or for those without, set the volume to an appropriate level when audio is involved
- **Always** stay on relevant sites and be on task when working on any activities
- **Do not use** on non-school related activities such as **chatting** on social media platforms, **playing games** and **watching movies** during school hours

# Cyber Wellness Education

## **Educating students on Cyber Wellness**

MOE has made significant changes to the Character and Citizenship Education. Cyber Wellness lessons will feature significantly in the CCE2021 lessons.

Topics covered in the Cyber Wellness lessons include:

- Cyber Use
- Cyber Identity
- Cyber Relationships
- Cyber Citizenship
- Cyber Ethics

# Cyber Wellness Education

**The school also has strategies to enable school-wide implementation of CCE. These include:**

1. All Character Coaches (CCs) are involved in delivering CCE curriculum in cyber-wellness covering cyber use, identity, citizenship, relationships and ethics
2. All CCs are involved in mentoring cyber-wellness ambassadors per class to lead the class in positive uses, and promoting peer support culture
3. Student leadership team to encourage school-wide students-led initiatives in building a respectful digital space through student online suggestions
4. Training and support for students to develop their digital competencies (Cyberwellness and New Media Literacies) through targeted school programs/activities/curriculum

# Cyber Wellness Education

In addition, through various programmes in school, students will continue to learn to be **respectful, safe, and responsible users of technology**.

# Parents'/Guardians' Role

- We would like to partner parents/guardians to ensure that students are well supported in their use of technology for learning.
- As parents/guardians, you can help in the following ways:
  - Model good digital habits for your child/ward e.g. parents/guardians not using devices during family meals.
  - Know your child/ward well, and have conversations with your child/ward about safe and responsible use of technology.
  - Set ground rules for internet/device usage.
  - Encourage your child/ward to use productivity tools using his/her PLD, to organise information and simplify tasks for efficiency.

# Parents' Voices: In Conversation on Students' Use of PLDs for Learning

# **Role of the DMA in Providing a Safer Digital Environment for Learning**

# Device Management Application Installation

- Your child's/ward's PLD will be installed with a Device Management Application (DMA) to provide a safer digital environment for learning.
- Installation of the DMA will be performed after the collection of the device. Students will be guided on the installation.
- This applies to both devices purchased through the school and pre-existing student-owned devices.
- The DMA will be funded by MOE and will be uninstalled from the device when your child/ward graduates/leaves the school.

# In-School DMA Settings (Default)

Schools will determine DMA settings for **in-school use**. As a default, these settings will continue to be in place after school as well:

- MOE and the school will set the level of web content filtering, including filtering out objectionable content or content that may not be conducive to teaching and learning (e.g. social media, pornography, gambling, or websites containing extremist content)
- Students will be able to use the device from **6 a.m. to 11 p.m.** daily
- The school will determine the apps and programs to be installed to support teaching and learning

# Providing Parents/Guardians with Greater Choice for After-School PLD Use

*The school will provide parents/guardians with more information on exercising the options.*

Default	Option A	Option B
<b>In-school DMA settings will continue after school hours</b>	<b>Parents/Guardians can modify the DMA settings after school hours</b>	<b>Parents/Guardians can choose to disable DMA after school hours</b>
For parents/guardians who want their child's/ward's use of the devices to be restricted only to teaching and learning, and prefer to leave it to the school to decide on DMA settings after school hours.	For parents/guardians who want more leeway over the use of the device, and prefer to take charge of the level of restrictions for their child's/ward's use of the device after school hours.	For parents/guardians who do not want their child's/ward's use of the device to be regulated by DMA after school.

- Having default school settings continue after school hours is the best option for parents/guardians who prefer not to, or do not feel ready to manage their child's/ward's device use on their own.
- Parents/guardians can request to change their choice of DMA settings at any time.

# Providing Parents/Guardians with Greater Choice for After-School PLD Use

	Default	Option A	Option B
<b>Protecting students from objectionable content</b>	MOE/school sets level of web content filtering	Parents/Guardians can apply additional content filtering	No content filtering
<b>Reduce distractions from learning through control of applications</b>	Parents/Guardians and students are <u>unable</u> to install additional applications	Parents/Guardians and/or students can install applications after school hours, but these applications are disabled during school hours	
<b>Limit screen time</b>	School sets hours during which students are able to use the device online	Parents/Guardians can modify the amount of screen time*	No control over screen time

\*Screen time limits set by the school will override parents'/guardians' settings during school hours.

# Providing Parents/Guardians with Greater Choice for After-School PLD Use

	Default	Option A	Option B
<b>Parent/guardian account</b>	Provided to allow monitoring of PLD activities after school hours		Not provided
<b>Monitor students' cyber activities</b>	Parents/Guardians can track their child's/ward's browser history after school hours		<p>Parents/Guardians will <b><u>not</u></b> be able to monitor or control their child's/ward's use of the device through the DMA after school hours</p> <p>No data* will be collected during use of PLD after school hours</p>

# Deciding on the Choice of After-School DMA Option

Parents/guardians may wish to consider the following questions before deciding on the choice of after-school DMA option which is best for your child's/ward's learning.

## 1. Child's/ward's current device usage habits

- How much time does my child/ward spend on their device?
- How well is my child/ward able to regulate their device usage on their own?
- Does my child/ward get easily distracted while doing online learning?

## 2. Parents'/Guardians' involvement

- How confident and familiar am I with managing my child's/ward's cyber wellness?
- Are there existing routines and open conversations on the use of the Internet at home?
- Am I aware of how to prevent different types of cyber threats that my child/ward might face?

*Have a conversation with your child/ward to talk about which setting is best for your child's/ward's learning.*

# Data Collected by the DMA

The DMA does **NOT** collect any of the following data:

- Login IDs and passwords entered into websites or into any applications
- Actions performed (e.g. posts, online comments, items added to a shopping cart, etc.) when visiting websites and using apps
- Documents and photos stored in the PLDs
- PLD location
- Webcam videos and microphone recordings

# Data Collected and Access Rights

- All user data collected through the DMA will be stored in secure servers managed by appointed DMA Vendors with stringent access controls and audit trails implemented. The DMA solutions used are cloud-based Software-as-a-Service (SaaS) solutions and are trusted solutions that have been operating for many years. They have also been subject to regular security review and assessment by independent reviewers.
- MOE has assessed and concluded that the DMA solutions have sufficient security robustness to ensure data collected are properly stored and protected. MOE will also subject the DMA Vendors to regular audit on the security of the system based on tender requirements.

# Data Collected and Access Rights

To prevent unauthorised access, DMA Administrators and DMA Vendors will be required to access their accounts using 2-factor authentication or the equivalent to ensure proper accountability for information access and other activities performed. There will be regular account reviews and audits for DMA Administrators' and DMA Vendors' accounts.
